# About Us

Re-Leaf is a brand under ICF group of companies established in the year 1991. Re-Leaf focuses in the design, development manufacturing & services of innovative infrastructures for portable sanitation, infrastructure & environmental management sectors.

Our focus is on bringing in innovative solutions to transform public health and hygiene across the world, with a wider impetus on sustainable sanitation infrastructures. The key products and service of Re-Leaf in the sanitation sector include:

- **Re-Leaf Portable toilets/ Mobile Toilet**
- **Re-Leaf Bio tanks.**
- **Re-Leaf Container Toilet**
- **Portable toilet rental services**

We have been actively associated with Government departments, Corporate and NGOs for their initiatives. The products are readily available and can be shipped to the required locations as per the requirements.

# Re- Leaf Portable Toilets

- A tough portable toilet cabin made out of high-quality raw materials, designed for a long life cycle.
- Excellent ergonomic design
- Long life assured

# Specifications

Portable toilets are suitable for mounting on the ready-made platform/ plain ground.

Overall size: 1100mm (w)\* 1100mm (B)\* 2340mm (H)

Weight: 80kg

## Material: Polyethylene.

Modular manufacturing helps to dismantle our cabin into 4 different parts.

This is very helpful for transportation & storage purposes.

Certification: Supplied products are inspected & for certified by **ISO 18436** qualified engineers. Our Factory is **ISO 9001-2015** certified.
